* WITH ALMANAC *

Augusta, Ga. Sun Time.

FIELD.

OUR SEEDS ARE GROWN AND SELECTED ESPECIALLY FOR THE SOUTHERN STATES.

Richards & Shaver, Printers. — 53,412.
TO ALL SEED PURCHASERS

IN THE SOUTHERN STATES.

In dealing in Seeds, we feel almost as if we were handling Holy things. For Seeds are used in the Bible to teach us even the lesson of the Spiritual Resurrection of the body. Seeds also have characters, they are good or bad. Seeds have vitality and life, they are dead or alive. Seeds are reproductive, a most holy food. We secure, therefore, neither time nor pains to get the highest possible grade of seeds. You may in a truth rely upon where being some better ones than those you get of us. We have had a lifetime experience in handling seeds in Wholesale and Retail. We offer our experience freely to you in any questions you may ask in this line. Glad to have your inquiries.

SHIPPING DIRECTIONS ON SEEDS ONLY.

Always state whether to ship your goods by Postage or Express, and do not forget to enclose the Postage and Ex¬press charges.

Postage (always to be prepaid by us) to any point in the United States is on 1-lb. pkg. 10c., 2-lb. pkg. 30c., 3-lb. pkg. 30c., 4-lb. pkg. 30c.

By Southern Express Co., (at following rates we must pay, to any point in the United States. 1 lb., or less, pkg. 10c.; 1 lb. pkg. 10c.; 3-lb. pkg. 15c.; 4-lb. pkg. 20c.)

Distance makes no difference by above cheap, easy travel. We give you courteous service for you, if you are 100 miles or 1,000 miles away— it's all the same. And we want you to have to care for yourself whether you want ten cents' worth or ten dollars' worth of seed.

DIRECTIONS FOR ORDERING SEEDS.

Send Cash with Order—Seed sent only to a post office. We can not send at any time or place, except by express. We must have money in advance by orders. We do not accept paper money if you want your seed by express. You can write. Postage and Express charges are paid by us. We cannot ship any seeds whatever, if not sure of your address.

Every two-lbs. we do not require a package to be sent. They are very weighty. We do not ship Center.—If no post office.

Our Warranty—We always pack our seeds with greatest care, and in keeping with the price of the seeds. We also put them in the best kind of seed bag we can get in the country. We guarantee them alive, and we will replace any that do not germinate. We also send our seeds in special carriage cases, which we use for our own use. We sell the best and rarest seeds for the lowest price, and we do not accept any returns, except for want of care in the ship"
List of Georgia Grown Seeds offered to the United States Seedsmen in Large Amount.

Quality the very best. These Georgia grown Seeds obtain their highest development here in Georgia. Seedsmen should come to this State each year for their supply of them. Write us about present delivery or future contracts.

**Collards**
All Collards ready for delivery. Grow 4 feet high. Large leaves branch out widely and thickly, in rows. Stand green all winter—frost making them all the better. Every farrow garden in Georgia grows Collards. Hosts of negro gardeners in Georgia grow nothing but Collards. We grow the Collard seed for United States. **Georgia Blue Stem Collard,** the old fashion kind, and that is why Georgia White Collage Co.—Whiter and more tender in ball and in pack.-Brussels of Blue Stem and preferred. Introduced some ten years or more. Three-fourths of them bunch up in winter. **Buncomb Collards**—Never listed before. Supply very limited. Sold at $1.25 a lb. Odd between above two Collards. Very hardy and very heavy foliage. Magnificent, juicy, sweet **Coles,** but hard to deliver before June. **Hardy Collards.** Leaves smooth, glossy, glazed green. Of great value because the insects don’t touch them.

**Cottons**—30 lbs. to bushel. Present or future delivery. This city is second largest inland cotton market in the world. We possess facilities for stocking United States seedsmen with all the cotton seed stocks. We name: **Georgia** Fine Upright Cotton, Peterkin, Fruit Bag Bell, Hawkins, Jones Improved, Mammoth Peerless, Texas Storm Proof, Drakes’ Cluster, Hauer-f’t-Heriong, Doughty’s Long Stapl. **Georgia** long staple Cotton. **Sea Island Cotton**—(Lawton) the best Sea Island Cotton off Charleston, 44 cents per lb. bushel.

We have just filled the United States free seed cotton seed order—800 bushels. We filled it one year ago. We are filling orders in good amounts for foreign countries. We are United States cotton seed headquarters.

**Cow or Field Peas**—Winter delivery. Next to corn and cotton, the South’s greatest crop. Can supply the following: **Unknown** or Wonderful, Whippoorwill, Clay, Tory, Iren, Miller, Black. **Black Eye White.**

**Georgia Era Peas**—New limited supply. It matures 2½ crops in one season. We believe it will be the coming cow pea crop of the North and West. Fine, large foliage and full of peas. It is a blue or green pea which Northern growers are trying to attain. 1 bushel $1.50; 5 bushels $1.25.

**Mixed Cow Peas**
Not one Georgia farmer in one hundred grows straight unmixed Peas of one type. He grows his Peas because it is better and for this reason—if the soil or season is not favorable to one type, it will be favorable to some of the other types. It is almost impossible for this reason to buy unmixed Peas. We say this to United States seedsmen, viz: If you want the best out turn in cow peas and peas) then order high grade Mixed Peas. They are cheaper too.

**Cat Tail or Pearl Millet**—January delivery. This is the most abundant forage growth in Georgia. Can be cut seven times in one season. The U. S. Agricultural Department has created in the last few years a new breed of Oats that supplies the cultivation of Oats for that area. It is a new standard product in Georgia, which supplies the trade. Order now. We have, we suppose, the largest stock of Pearl Millet house in the United States and are shipping to all ports.

**Chufas**—44 lbs. to bushel. A great hog crop with us. We have lowest prices if ordered now. We are sure no other house in United States has the stock of Chufas we have. Last year we could not half supply the demand. We have ten times the stock to-day that we have ever carried. Will sell cheap now for spot shipment.

**Spanish Pea Nuts**—Fall delivery; 24 lbs. to bushel. Sweeter than Virginia. Peas hang to roots. Vines and peas can be pulled at one time and stored away, and all fed to hogs and cattle. Very popular here. We have tremendous stock, and are filling orders in many States.

**Watermelons**—We are the largest and best Melon shipping district in the United States; highest grade seed. We ship to the largest growers. **Blue Gem**—the coming Melon shipping Gem. As tough a them there is in the earth. Invests thousands of shippers this year. Larger than the old Gem. **Kohr Gem. Rattlesnake, Jones, Sugar Loaf.**

**Augufland White**—New, three weeks earlier than any known Melon. Matures June 12th to 15th.

**Cotton**—Seedsmen who buy Western Melon Seed, for sending into Southern territory will surely send fail of these along with the seed. They do not fully mature here; have white hearts. This is well established.

**Soja Beans** or **Coffee Berry**—60 lbs. to bushel; makes forage as good as cow peas. Three or four feet high. Vines cut when leaves are brown in the milk; are made by—it is thus cheap. The demand has been so large this fall that we have now sold out.

**7-Top Turnips**—Present delivery or June contracts.

**OKRA**—Future contracts or present delivery. **White Velvet, Dwarf White, Dwarf Green.**

**Curled Mustard and Southern Kale**—On contract.

**Osirich Plume Mustard**—Only listed by us. New. Leaves are long, exquisitely crimped, ruffled and frilled, that move and look like beautiful crimped green ostrich plumes. Originated here. Limited amounts for sale next fall, and saved for Bitter dressing and Curled Mustard. Plenty enough for centre table ornament. A field of it is the prettiest of all vegetables. One plant this season weighed five pounds.

**Upland Rice**—Winter delivery.

**Dish Cloth Gourd Seed**—(Luffa Acantagul) Stock exhausted.

**Nixon Cantelope**—Present delivery. The best Southern native Cantelope by far; 8 to 9 lbs; good size; ribbed yellow flesh, originated in this county. Our market men get 25 per cent. more for Nixon than for other Cantelopes. The demand has been heavy for seed to date.

**Sweet Potatoes**—Spring delivery. **Wireless Bunch Yam, Sugar Yam, Pumpkin Yam** in barrel lots only.

**Georgia Rice**

**Asparagus Roots**—Present delivery—Palmetto.

**Bermuda Grass Sets.**

**White Artichokes**—Great hop crop; 5 bushel lots 50c; 10 bushel lots 75c.

Garden Work for the Various Months

When to Plant.

Garden Work for January.—Manure and prepare the soil for the more hardy crops. Plant the early crop of English Peas, and prepare the ground for Irish Potatoes next month. Prune your vines, fruit trees, hedges, etc. Early Wakefield Cabbage may be sown. Onions and Shallots planted. Carrots, Lettuce and Turnips sown.

Garden Work for February.—Dress Asparagus beds; sow Artichoke and Vegetable Oyster late this month; sow Tomato, Egg Plant and Pepper under glass, in gentle heat; plant early Corn; finish pruning, transplanting vines and fruit trees. Plant Strawberries, Horse Radish, English Peas, Onions and Irish Potatoes, and Yams for slips. Sow Asparagus, Cabbage, Cauliflower, Celery, Carrots, Turnips, Radishes, Parsnips, Mustard, Spinach, Beets, Parsley and Cress.

Garden Work for March.—Continue to plant Strawberries, English Peas, Onions, Celery, Sweet Potatoes, Horse Radish, Tomatoes, Cabbage and Corn. Plant Ground Peas, Pumpkins, Okra and a few Snap Beans. Protect the blossoms of fruit trees from frost with smoke. Sow Parsnips, Radishes, Lettuce, Carrots, Parsley, Egg Plant and Vegetable Oyster.

Garden Work for April.—Broccoli may be sown, and Cauliflower for a late crop. Look after your Asparagus beds. Many things planted last month may now be replanted, if necessary, to secure good crops, such as Cabbage, Onions, Celery, Sweet Potatoes, Okra, Lettuce, etc. Plant Water and Mustard, Melons, Squashes and Cucumbers, in rich sandy soil.

Garden Work for May.—Late this month transplant Celery, Winter Cabbage, Tomato, Sweet Potato Slips, etc., but they must be well watered and protected from the hot sun. Continue to plant Corn and Snap Beans, Pumpkins, Winter Squashes, Table Peas, Cornfield Beans.

Garden Work for June.—Continue to transplant Celery, Winter Cabbage, Sweet Potato Slips, etc., protecting them from the hot sun. Prepare ground for Turnips by frequent ploughing or digging. Winter Cabbage Seeds, if shaded by day until up, may still be planted. Continue to plant Corn, Snap Beans, Cornfield Beans and Table Peas, and save all garden seeds as they ripen.

Garden Work for July.—Make preparation for a Fall Garden. Continue to gather and store Onions, Shallots and Irish Potatoes. Get your ground ready for Winter Cabbage. Put in another crop of Beets, also of Ruta Baga and other Turnips. Replant Cabbage, Celery, etc.

Garden Work for August.—Spinach, Lettuce, etc., may be sown, and Snap Beans and English Peas Planted; also Melons and Cucumbers for pickling. Set out late Tomato Plants and earth up your Celery, Cauliflower, Broccoli, etc., may be set out for winter use. Continue to transplant Celery, sow Ruta Baga and other Turnips, Beets, Radishes, etc.

Garden Work for September.—Spinach, Celery, Lettuce and Radishes may be sown. Strawberry beds may also be prepared and the plants set out. Sow Turnips—the Flat Dutch and the Red Top are the best—together with Mustard and Cabbage for winter use. Of the latter, Early York and other early sorts may be sown to set out the first of February.

Garden Work for October.—Red Top Turnips may be sown for winter use, but it is almost too late to bring the roots to much perfection, except on the coast. Those already planted may be cultivated and brought to a stand. Plant Strawberry beds. Let your manure heaps be looked after, and your garden tools made ready for spring work.

Garden Work for November.—English Broad Beans and Early English Peas may be planted this month. Thyme, Horse Radish, etc., may be taken up and divided. Strawberry beds planted, and the ground manured and prepared for spring work. Gather and bank the Sweet Potatoes. Begin to plant and prune fruit trees. The earlier the vine is pruned after killing frost, the better.

Garden Work for December.—Either prune your trees and plants yourself, or stand by and see that it is done properly. "The time to prune," says an experienced cultivator, "is when your knife is sharp," but the best time in when the leaves are off.
HOG CROPS—We do not think that in other parts of the U. S. "Hog Crops," such as chufas, Spanish Pea Nuts, Jerusalem Artichokes, &c., are grown as extensively as about Augusta, Ga. They are so easily grown, so easily fed and the product is so large, that it is strange that they are not universally grown. Chufas are exceedingly fattening,—making sweet meat. The introduction of the Spanish Pea Nut has been declared to be of equal value to the introduction of a Rust Proof Oat over the old-fashioned kind. Do not forget we are "Hog Crop" Headquarters, and that the growing of Hog Crops is the right way to make hog growing profitable.

FORAGE CROPS—The South is wonderfully blessed in her millets and sorghum growths—our long, mild seasons making 4 or 5 cuttings possible. Next to your garden, yonr ½ or ½ or 1 acre in these crops returns your biggest land dividends. Look over our list.

COW PEAS—No other crop so extensively grown in the South for hay or fertilizing purposes. More profitable to the South than Red Clover and Timothy are to the North. Growing in the most barren soils, coming as a second crop after grain, shading the soil in the hot months, leaving the sub-soil loose and mellow—these are all strong points for their culture. We believe we list the largest variety of Cow Peas of any seedman in the country. Look at our list. A common way is to buy the "Mixed Peas" (which we keep in quantity). They are a triffe cheaper than straight peas of one kind. It has been a rather common error to believe that cow peas only flourish in the extreme South. Our Experimental Stations declare that they would be a profitable crop in our Middle and Eastern States. Our friends in those latitudes should make trial of them.

THE BEST DEVELOPMENT of Sweet Potatoes, upland Rice and Cotton is attained around us. We can give prices in largest quantity. We note especially Tennessee Yams, Jones Cotton and Shaw Corn, which stood highest tests in Georgia Experimental Station.

THE BEGINNING OF A GREAT INDUSTRY.

The National Industry of Dalmatia in Europe is growing the flowers—of which the Commercial Dalmatian Insect Powder is made. No other Insecticide known is so useful—being fatal to all insect life, and yet harmless to human. The Agricultural Department at Washington, D. C., tried for years to get seed of this plant for distribution. The Department believed that a great industry could be built up in the U. S. The government failed in getting seed for Dalmatia, kept her industry safe by baking the seed before shipping them. Our Agricultural Department calculated that at 10c. a pound it would be a profitable crop for the U. S. There are three kinds of this plant; Pyrethrum Cinerariae Foliolium is the true Dalmatian, and listed by no other seedsmen in the United States beside ourselves. The Persian kind—Pyrethrum Roseum and Pyrethrum Alba. The Persian are much weaker; besides their flowers bloom at various different times, making harvesting expensive. The Dalmatian flowers bloom all at once—at same time. The Persian costs at wholesale, about 22c. a pound. Two immense private corporations in California are now growing the Dalmatian plants (they will sell not one seed), in great quantity. Their product powder, they ask 50c. a pound for $300 lots. This powder can be adulterated 50 per cent. with flour and still be as strong as the powder in general use. The Dalmatian is hardy. Grows well here. Have grown and tested it. The bush is tall and full of buttons, which are innumerable little composite flowers. When these little flowers are in bloom, pluck the buttons, dry them in shade. Keep them dry at all times. And when dried, beat or grind into a fine powder—and you have the most powerful of Insecticides. Every drug store or general store sells it. It is used in all our homes and is the best of insecticides in our gardens or green houses. Its production is practicable and can be made profitable in small or large amounts. One of our leading Southern Experimental Stations procured a few true Dalmatian seed. For several years this station has grown and made all their own Insect Powder in good amounts. They have now less than 10 pounds (the only seed for sale in the U. S. of Pyrethrum Cinerariae Foliolium), which will be distributed through us at $1.50 per ounce (or 2,000 plants), postpaid. This small beginning could grow into an immense industry. The two immensely wealthy farms in California has set the pace. Let us know the results of your trial.

The Howard & Willet Drug Co.
Seed Department, Augusta, Ga.
GARDEN SEEDS
Best Adapted for Our Southern States.

ARTICHOKE.

MAMMOTH WHITE FRENCH.—Culture: Drill seed in March 3 inches apart, and in 1-foot rows. Following Fall transplant 4 feet apart each way, training each Fall and cut off suckers. Don’t let heads mature. Will yield many years.

A great favorite in Southern Europe, New Orleans and Mobile. When boiled the globe-shaped heads are very tender and succulent. Packet, 10 cents; 1 ounce, 30 cents.

JERUSALEM ARTICHOKE. See under “Hog Crops.”

ASPARAGUS.

ASPARAGUS ROOTS.

(Culture: Prepare in Spring or Fall bed 5 feet wide, 2 feet deep, fill in manure and soil. Make 3 rows and set out roots 6 inches below surface and 12 inches in rows. Every Autumn dress with manure and salt after tops are cut. Bed should last 12 years. 100 roots set bed 10 feet by 3 feet.)

CHARLESTON FRENCH OR PALMETTO.—Rapid grower. Keeps for long while in excellent condition. Immense stalks, and since its introduction no Asparagus equals it. See price below.

BARR’S MAMMOTH.—Tender stalks, light in color, and of good size. All Asparagus seed, packets, 5 cents; 1 ounce, 10 cents; 1 pound, 25 cents.

ASPARAGUS ROOTS.

(Culture: From seed: 1 ounce for 60 foot row. Soak seed 24 hours in warm water and sow thinly in row 1 foot apart. Thin out seedlings 4 inches in rows. Set out 1-year-old seedlings. Cultivate Asparagus Roots below.)

CONOVER’S COLOSAL.—Of large size and productive. See price below.

CHARLESTON FRENCH, OR PALMETTO.—See description above. Roots bear transportation to any part of the United States. There is no finer vegetable than Asparagus. A most profitable market crop about Augusta. 100 Roots, $1.00; 1,000 Roots, $6.50. We have special arrangements for large amounts.

BEANS—BUSH SNAPS OR DWARF.

For all Beans when sent by mail add for postage: 1/2, 5 cents; 1 pint, 10 cents; 1 quart, 15 cents.

(Culture: Beans can be sown for succession from end of February, or sooner, till September. Shallow but firm. Drop 1 bean every 2 or 3 inches in rows. 18 inches apart. Cover 2 inches deep. Don’t work while dew is on beans, for fear of rust. 1 quart plants 200-foot row; 11 bushes, 1 acre.)

WILLET’S CRYSTAL WHITE WAX—Beautiful distinct variety. Pods stringless, crisp, tender, rich flavor and almost transparent. Remain in use for table longer than other kinds. Packet, 10 cents; pint, 25 cents; quart, 30 cents.

WILLET’S RUST PROOF BLACK WAX—An old variety and a great favorite with market gardeners and others. Tender yellow wax pods. 2 papers for 5 cents; 1 pint, 20 cents; quart, 30 cents.

WILLET’S CRYSTAL RUST PROOF BLACK WAX—An old variety and a great favorite with market gardeners and others. Tender yellow wax pods. 2 papers for 5 cents; 1 pint, 20 cents; quart, 30 cents.

BEST OF ALL—A German Bean. Long, green, glossy, fleshy pods. Enormous producer. In New Orleans this is the favorite of all shipping beans. 2 papers for 5 cents; 1 pint, 25 cents; 1 quart, 30 cents.

EXTRA EARLY RED VALENTINE—An old, well-known bean with bountiful of friends. Ready for table use six weeks from planting. Round green pods. No other bean is so largely sold to Southern truckers. 2 papers, 5 cents; 1 pint, 15 cents; quart, 25 cents.

EARLY MOHAWK SIX WEEKS—Long green flat pods. Our darkest bean. Will stand some frost. Preferred for early plantings. 2 papers, 5 cents; 1 pint, 15 cents; quart, 25 cents.

EXTRA EARLY REFUGE OR 1000 TO 1—A 7-weeks bean, medium to late, large vines, favorite for canning and pickling, productive, round pod, good main crop. 1 pint, 15 cents; quart, 25 cents.

EARLY YELLOW SIX WEEKS—Hardy and very early, green pod. Resembles Mohawk save in color. A leading sort. 2 papers for 5 cents; pint, 15 cents; quart, 25 cents.

BEANS—POLE.

POLE—(Culture: Plant in hills 4 feet apart each way—4 or 5 beans to hill, plant the eye down. 1 quart plants 150 hills, 1 bushel 1 acre.)

LARGE WHITE LIMA—Either green or dry, this is the standard table vegetable and the best shell bean known. Give it rich ground and plenty of room. 1/2, 15 cents; pint, 25 cents; quart, 40 cents.

SOUTHERN PROLIFIC—Strictly a Southern bean. Stands the southern heat. Continuous bearer until frost. Pod 7 inches long and flat; seeds dark yellow. Standard in this lane. Favorite pole bean in South is in damp low lands, among corn, an i let the vines grow up the corn stalks. 2 papers for 5 cents; pint, 15 cents; quart, 25 cents.

FAT HORSE OR CREESE BACK—Strictly Southern bean, similar in culture to Southern Prolific. Seed are white pods round with creese in back. Makes a good shell bean. 1/2 pint, 15 cents; pint, 25 cents; quart, 30 cents.

SOUTHERN PROLIFIC OR CAROLINA SEWHE—Similar in every way to large Lima, except that it is only half as large, seed and pods being smaller. Larger grown in the South and immensely popular. 1/2, 15 cents; pint, 25 cents; quart 43 cents, peck, $1.25.

SILKLESS BLACK GERMAN WAX—Yellow pods. Bears richly flavored, stringless pods of same good quality as the Dwarf German Wax. Papers 2 for 5 cents; 1/2 pint, 15 cents; pint, 25 cents; quart, 40 cents.

BEETS.

(Culture: 1 ounce plants 100 feet; 4 pounds, 1 acre. Soak seed 12 hours before planting. Can be sown pretty much all Spring and Summer. Sow 1 inch deep in drills 18 inches apart, thin out afterward to 3 inches in drill.)

EARLY ECLIPSE—The handsomest of the very early Beets. Globed shaped, fine dark red color. Rapid grower. Small tops. Purplish green foliage and red veins. Packet, 5 cents each; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound 60 cents.

EARLY DARK BLOOD TURNIP—Trifle later than Eclipse. Flesh deep blood red. Tender, fine flavor. The most generally used family beet. 2 papers, 5 cents; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound, 60 cents.

EARLY EXTRA OR BASANO—As early as Eclipse. Flesh pink with white streaks Very juicy. Packet, 5 cents; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound, 60 cents.

IMPROVED LONG SMOOTH BLOOD RED—Medium late. Also often used for late Summer planting and winter use. 2 papers for 5 cents; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound, 60 cents.

HALF LONG BLOOD—Similar to Long Blood, but differs in size—being half long. 2 papers for 5 cents; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound, 60 cents.

SILESIAN SUGAR WHITE—A sweet white beet preferred by some. 2 papers for 5 cents; 1 ounce, 10 cents; 1/2 pound, 20 cents; 1 pound, 60 cents.
BEETS FOR STOCK, OR MANGEL WURZEL.

(Culture: In Europe this is one of the necessary crops for cattle. Sow from 300 to 600 bushels being grown to acre. Sow 5 pounds to acre. Sow in rows 2 feet apart. Thin to 12 inches in row.)

NORBITAN GIANT.—We have tried to get in this the largest stock beet that grows. A long red variety of great size. Flesh solid; good keeper. 1 ounce, 10 cents; 1 pound, 15 cents; 1 pound, 40 cents; 5 pounds, $1.50.

GOLDEN TANKARD.—Recent introduction. Prized for its great yield and especially for rich character of milk it produces. Crowns small, heads large, in being of deep yellow-colored flesh to its very core. Same price as Norbitan Giant.

BROCCOLI.

(Culture: Same as cauliflower. Sow one ounce for 2,000 plants. Resembles cauliflower, but does not have such white, compact heads, but is harder.)

EARLY PURPLE CAPE.—Fairly sure header and the best variety. Heads brownish purple and of excellent flavor. Packets, 10 cents; 1 ounce, 40 cents.

BRUSSELS SPROUTS.

(Culture: 1 ounce per 100-foot row. Sow in May. Transplant July in rows 15 inches apart, 12 inches in row. One of our best winter vegetables. Plant grows 4 feet high. Root about 3 inches in diameter. Sow of little alike; while the whole stalk is lined on every side with small green solid; heads, which are improved by frosts; been cooked, melt in the mouth like tenderest Cauliflower.)

PARIS WHITE OR ROSEBERRY.—Regarded as the best. Packet, 5 cents; 1 ounce, 25 cents.

CABBAGES.

(Culture: 1 ounce makes 3,000 plants. 1 acre, 5 ounces. Sow in beds almost any month in the year, usually from February to November. For Winter crop, sow August and September. Transplant deep, up to top of roots. Grown in deep rich soil. Water plants well. Set out in rows 24 feet apart.)

25—Possibly Cabbages are the most universally grown of the vegetables for home consumption or shipping. The most critical truckers and gardeners will find our Cabbage seed for heading qualities unequaled.

EARLY JERSEY WAKEFIELD OR CHARLES-TON.—Early and well known favorite. Heads conical shaped. Possibly the principal variety grown by truckers for early shipment and by gardeners in general. We have seen quantities of this cabbage grown off Charlestown of 22 pounds weight, all solid heads. 2 papers for 5 cents; 1 ounce 20 cents; 1 pound, $1.00.

IMPROVED EARLY DRUMHEAD.—An intermediate kind between the cone-shaped early and the late varieties. Can be planted closely. Takes its name from its shape. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

WILLET'S ALL SEASONS SURE HEADER.—One of the finest for second early or late growing. Grows quickly to a large size and heads surely. Its a true, sure, hard-header. Its name is an index of its character. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 65 cents, 1 pound, $2.25.

IMPROVED EARLY FLAT DUTCH.—Not so early as the very earlier, and not so heavy as some, but very valuable, because of its flat shape, and extensively planted. Weights 10 or 12 pounds. 2 papers for 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

EARLY WINNINGSTADT.—A Prussian cabbage; a standard cone shape, solid head, second early variety. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

GREEN GLAZED.—Late sowing. Glossy green leaves. Not so liable to insect attack, and especially adapted for hot climates. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

EARLY LARGE YORK.—For very early sowing. An old English variety. Heads small and slightly indented. Rather dwarf. Can be made 18 inches in row. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, $1.75.

PREMIUM LATE DRUMHEAD.—Sow in September. Very hardy. Withstands cold, large round heads, though sometimes flattened on top. Well known. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents; 1 pound, 82.

MARBLEHEAD MAMMOTH.—Largest of all the cabbage grown, though somewhat coarse. A late Drumhead in shape; solid; excellent flavor. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 65 cents, 1 pound, $2.50.

PREMIUM LATE FLAT DUTCH.—The old favorite for Fall and Winter sowing. Grows low to ground. Heads large; bluish green. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

BUNCORNE OR N. C. WINTER.—A firm solid header. Keeps well. Favorite in North Carolina. Either a Spring or Winter cabbage, as wanted. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents, 1 pound, 82.

CABBAGE.

(Culture: One ounce per 100 feet, 8 pounds an acre. Soil must be fertile, deeply dug and light or sandy. Soak seed well, sow in drills at 10 or 12 inches apart so plants can be worked.)

CHANTENAY, STUMP ROOTED.—Half long rooted. Scarlet; broad shoulders. Packets, 5 cents each; 1 ounce, 25 cents; 1 pound, $1.00.

IMPROVED LONG ORANGE.—Roots long and deep orange color. 2 papers for 5 cents; 1 ounce, 10 cents; ½ pound, 25 cents.

CARROTS.—FOR STOCK—Sow 3 pounds per acre. These Roots are often 15 inches in circumference. Grown in all parts of the country. 2 papers, 5 cents; 1 ounce, 10 cents; ½ pound, 25 cents.

LARGE WHITE BELGIAN.—Large long-rooted. The best white Stock Carrot. ½ pound, 25 cents; 1 pound, 75 cents; 3 pounds, $1.75.

CAULIFLOWER.

(Culture: One ounce for 2,000 plants, 8 ounces, 1 acre. This vegetable, which is one of the finest and most delicious, thrives best in fresh, rich, cool, well-drained soil. Hotbed in January and February. Transplant in April. Keep well watered in dry season. May be bleached by hoed in, and cut when withering. Heads before curd begins to split. Plant also in September and October for May heading.)

EXTRA EARLY PARIS.—Best known of all varieties. Tender and delicious. Packet, 10 cents; 1 ounce, 75 cents.

CELEY.

(Culture: One ounce to 4,000 plants; 4 ounces 1 acre. Now grown here, with profit, extensively for market. Sow in April and let under cloches. In August, plant when 5 inches high in 3 foot rows, 6 inches in row. When tall enough they should be covered up with earth to bleach.)

GIANT WHITE PASCAL.—About 2 feet high. Nutty flavor, stalks broad and crisp and stringless. Bleaches in 8 or 9 days. Plucks, 5 cents; 1 pound, 30 cents.

NEW ROSE.—Very hearty. Delicious flavor, as most pink varieties are. Packet, 5 cents; 1 ounce, 20 cents.

CHERVIL.

(Culture: Sow any time in Spring in shallow drills 1 foot apart.)

CURLED CHERVIL.—The leaves are used for flavoring soups and stews and for garnishing same as parsley. 1 ounce, 15 cents; 4 ounces, 30 cents.
SEED CATALOGUE AND ALMANAC.

CHICORY.
(Culture: Sow in May and June in drills 1 1/2 inches apart.)

LARGE ROOTED—A perennial if cut before blooming. Forage can be cut three or four times a season. The roots of this variety when dried and roasted can be ground and used as a substitute for and mixed with coffee.

COLLARDS.
(Culture: One ounce makes 2,500 plants. Six ounces for one acre. This is the southern countryman's friend, found even in the most pretentious gardens. And there are tens of thousands of plantation cabins fringed with a growth of Collard Greens, and no other vegetable. Nine tenths of the Collards of crop was killed January, 1895, in the cold. Seed are scarcer than ever before. But ours are true fresh South Georgia grown. Culture same as Cabbage.)

TRUE GEORGIA BLUE STEM—Does not head. Flourishes almost without cultivation. The leaves are cut, boiled and eaten as "greens." Grows 3 to 4 feet high. Stalks in Spring and Summer put out new leaves to supply places of those cut. Leaves get very tender when frost touches them. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 33 cents.

WHITE STEM CABBAGE HEAD—Nine-tenths of these in the Winter and are the very perfection of a Collard in swine's harness, resembling in this respect the Cabbage and yet retaining the hardness of the Collard. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents.

CORN SALAD, or FETTUCI.
(Culture: Sown in shallow drills in Spring, it can be used in two months. For early Spring Salad sow in September or October, ounce for 100 feet.)

BROAD LEAF—A most excellent salat, used like Lettuce. Can be used as a Salad during Winter and Spring months. 1 ounce, 10 cents; 4 ounces, 25 cents.

CRESS, WATER.
(Culture: 1 ounce to 100 feet. Sow in Spring on the banks of running water streams.)

TRUE WATER—Can be cut over and over again. An exquisite relish with all meats. It's the Frenchman's delight. 1 packet, 10 cents; 1 ounce, 43 cents.

CORN, TABLE SWEET.
(Culture: Plants succeedingly, crops can be had till frost. Plant in hills 3 feet apart, in each way, 5 kernels to hill; 4 or 5 quarts to acre. The South does not fully appreciate the superior excellence of Sweet Corn over Field Corn (for table use.) 1 to 2 if sent by mail add for postage 5 cents for 1/2 pint, 10 cents for pint; quart, 15 cents.

ADAMS EARLY—Not a Sugar Corn, but fairly sweet and maturing in about 40 days. 4 to 5 wide, 7 kernels; each 12 inches; rows 20 inches apart. 10 to 15 per ounce; 25 cents; 2 ounces, 75 cents.

MAMMOTH SUGAR—Medium in season. The largest ears of all the Sugar Corns; sweet and prolific. 2 pounds, 5 cents; pint, 15 cents; quart, 25 cents; peck, $1.

STOWELL EVERGREEN—Remains green a long time, tender and sweet. Best and most productive of all the Sugar Corns. Quite productive. A fine canning Corn. 2 pounds, 5 cents; pint, 15 cents; quart, 25 cents; peck, $1.

CUCUMBER.
(Culture, 1 ounce for 80 hills; 12 pounds 1 acre. Plant after frost 4 inch deep, and thereafter every two or three weeks for well manured hills 4 feet apart. Thin to 4 plants in hill.)

LONDON LONG GREEN—Long and crisp; not many seeds. Makes fine pickles. Two papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 35 cents.

GIANT PERA—Long variety. Originally from Turkey. Crisp and tender; of enormous size, sometimes 18 inches long and 10 inches in diameter. 1 ounce, 10 cents, 4 ounces, 50 cents.

EARLY FRAME—Early and well-known. 2 papers, 4 ounces, 25 cents.

BEST EARLY WHITE SPINE—Light green; medium sized; covered with white spines. Productive; carry. Largely used for forcing. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents.

NEW JAPANSE CLIMBING—Listed by most seedsmen as a novelty. Grows on a pole 7 feet high with 20 or more excellent eating Cucumbers on each vine. Packets, 25 cents; 1 ounce, 50 cents; 1 pound, 75 cents.

EXTRA EARLY CLUSTER—Earliest in cultivation. Fruit small, usually in pairs. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents.

GHERKIN OR BURR—Grown entirely for pickles. Packets, 5 cents each; 1 ounce, 10 cents; 4 ounces, 25 cents.

NICHOLS’ MEDIUM GREEN—Fair length, smooth and straight fruit. Dark green. Fine table fruit. Packets, 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents.

EGG PLANT.
(Culture: 1 ounce to 100 feet. Sow in May, June, July and August. Cover in lightly. When up thin out to 3 inches. When leaves are 7, or 8 inches long Blanch by gathering in the hand and tying; when quite dry wipe yarn thread near the tip.)

LONG GREEN CURLED—One of our best salad plants: Especially delicious when added to and served with Lettuce. Packets, 5 cents; 1 ounce 15 cents; 4 ounces 50 cents.

KALE.
(Culture: 1 ounce for 2,000 plants; 3 pounds 1 acre. For Spring and Winter greens sow from August to October in drills 2 feet apart. Thin out to 6 inches in row and cultivate as cabbages.)

DWARF GREEN CURLED SCOTCH—Most tender and delicate of all the cabbage family. Improved by frost. Leaves look like an immense feather. Suitable for market. 2 pounds, 5 cents; 1 ounce, 10 cents; 4 ounces, 30 cents.
KOHL RABI.

(Culture: 1 ounce for 200 feet; 4 pound, 1 acre. Sow in February, March, or August to October in rows 1 foot apart and thin to 10 inches between.)

EARLY WHITE VIENNA—A turnip rooted cabbage, the whole part of which is the enlarged stem or root, which must be cooked when it is about 2 to 3 in. thick; thought by some equal to cauliflower—like which it is prepared for table. Packages, 5 cents each; 1 ounce, 25 cents.

LEEK.

(Culture: An onion esteemed for soups. Sow in February or March. Transplant when 6 inches high in rows 1 foot apart and 6 inches in row. Plant also in September and October. 1 ounce for 250-feet drill.)

LARGE CARENTAN—French variety. Large size, dark leaves. Packages, 5 cents each; 1 ounce, 20 cents.

LETTUCE.

(Culture: 1 ounce for 250-feet drill; 5 pounds, 1 acre. Sow in beds almost any month in year. Reset plants 8 inches apart in rows.)

EARLY CURLED SIMPSON—Leading early sort. Very tender. Packages, 5 cents each; 1 ounce, 15 cents; 4 ounces, 40 cents.

DEACON CABBAGE—Large, solid head Cabbage. Lettuce for Summer use. Very celebrated in the West. 2 papers for 5 cents; 1 ounce, 20 cents; 4 ounces, 40 cents.

IMPROVED HANSUN—Crisp, tender, curled variety. Stands hot sun well. Weighs 2 or 3 pounds. Papers, 2 for 5 cents; 1 ounce, 15 cents; 4 ounces, 40 cents.

DENVER MARKET—New and distinct. Leaves beautifully marked and blistered. Tender and crisp. Slow to go to seed. Heads look like Savoy Cabbage. Package, 60 cents; 1 ounce, 50 cents.

PARIS WHITE COS—Possibly the earliest. Fine header, especially when heads are tied and blanched. Grown thus, they are eaten often in France like celery, without dressing. Packages, 5 cents; 1 ounce, 20 cents; 4 ounces, 45 cents.

SILVER BALL—Foreign variety. An all-the-year-around lettuce. Heads silvery white; solid, firm and of exquisite flavor. Papers, 2 for 5 cents; 1 ounce, 20 cents; 4 ounces, 45 cents.

MARTYNIA.

Very popular for pickling. Cut the pods when young and tender. Sow in March or April in hills 3 feet apart. 1 package, 10 cents.

MELONS—WATER.

(Culture: Dig holes 2 feet deep and fill with rich mould and manure. Plant in Spring 10 seeds to hill and thin out to 2. Finch ends of shoots. Never bury your seed or eating melons grown near the red clay still land. 1 ounce sows 20 hills; 12 pounds 1 acre.)

Augusta Rattlesnake—An elongated striped Melon which for twenty years has had a National reputation for close market and for home use. Having originated here, the Augusta Rattlesnake Melon is almost as well known as August; Thin rind, flesh red. 1 ounce, 40 cents; 4 pounds, 35 cents; 1 pound, $1.

AUGUSTA SUGAR LOAF—A greenish white, elongated Melon with crisp red flesh, with as thin a rind as Rattlesnake. Grows to an immense size—a whole market wagon load may be tipped on sixty pounds, each. Originated around Augusta. It's a beauty to look at and a delight to eat. 1 ounce, 10 cents; 1 pound, 35 cents; 1 pound, $1.

THE JONES MELON—Rind dark; flesh bright red. Almost round in shape. Rind a trifle thicker than the two above Melons. Sixty-five to seventy pounds is a frequent size for this Melon. Originating near us only a few years ago, it has sprung into the widest popularity, and is listed in all the United States Seed Catalogues as one of the very best. 1 ounce, 10 cents; 1 pound, 35 cents; 1 pound, $1.

PRIDE OF GEORGIA—An exceedingly large, round, green Melon, flesh crisp and red. You will find occasionally on it small, rough, slightly scaly spots. This Melon is close kin to the Jones Melon, and is a handsome Melon inside and outside. 1 ounce, 10 cents; 4 pounds, 35 cents; 1 pound, $1.

KOLB GEM—Known everywhere, and only grown because it is tough enough to ship across the continent—if need be. It is a source of great regret that our Northern and Western lands who are dependent upon Melons imported from the South cannot have a better tasting Melon sample than the tough and almost insipid Kohl Gem—of which kind we ship away every summer so many ship loads and so many thousands of carloads. 1 ounce, 10 cents; 4 pounds, 25 cents; 1 pound, 75 cents.

MELON—CANTALOUP.

THE NIXON—Originated in this county and drove out every other Cantaloupe for home and market use. Weighs 8 to 12 pounds. Flesh crisp and sweet. Rough skin. Good shipper. Deep ribbed. 1 ounce, 10 cents; 4 ounces, 25 cents; 1 pound, $1.

NETTED NUTMEG—Shaped like a Nutmeg. High-ly scented. Suits the garden especially. Long and well-known. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents; 1 pound, 75 cents.

GREEN FLESHED OSAGE—This is the leading favorite shipper into Chicago. Intermediate. Cocoanut shape. Netted skin. Good quality. Green flesh. 1 ounce, 10 cents; 4 ounces, 23 cents; 1 pound, 75 cents.

MUSHROOM SPAWN.

(Culture: Usually grown in a dark cellar by simply breaking up the Spawn brick and sowing it in February in the soil in a moisture loam bed. The growing of Mushrooms is a fashionable and enjoyable pastime, with a large amount of literature written on their cultivation.)

ENGLISH MILLTRACK SPAWN—The bricks weigh about 1 pound. Price per Brick, 25 cents; by mail post-paid, 35 cents.

MUSTARD.

(Culture: 1 ounce to 100 feet. Sow in Fall, Winter or Spring in rows or shallow drills. Press earthy. In late Fall, early Winter, or the early Spring. Ready for use in 3 or 5 weeks.)

CHINESE BROAD LEAF—Leaves broad, sometimes 12 inches long and crinkled. Don't shrivel much when cooked. Excellent for greens, making an enormous amount of herbage. Leaves when cooked have an agreeable flavor like Spinach. 1 ounce, 10 cents; 4 ounces, 25 cents.

SOUTHERN GIANT CURLED—The Southern favorite. Hardy and large leaf. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents.
ONION SEED.

(Culture: 1 ounce to 20-feet drill; 8 bushels to acre. Sow early in Spring or October 4 inches in row—rows 12 inches to 15 inches apart.)

One of the largest; often 20 inches in circumference; 4 pounds in weight. Rapid grower; good in one season. Flat-topped, in shape. Silver white. Packet, 10 cents; 1 ounce, 25 cents; 1 pound, $2.00.

BERMUDA RED—Early; flat. Extreme Southern growers may find the Bermuda onions the surest crop. In Florida and around New Orleans the growing of large onions for market from the seed is an immense industry. Packets, 10 cents; 1 ounce, 20 cents; pound, $2.

BERMUDA WHITE—Flat; extra early; mild flavor. Packets, 10 cents; 1 ounce, 20 cents; 1 pound, $2.

PRIZETAKER OR YELLOW GLOBE SPANISH—Globe shape; rich straw color. Weight, 5 to 4 pounds. Mild, delicate; good keeper. This variety has become famous all over the world. Packet, 10 cents; 1 ounce, 25 cents; 4 ounces, 75 cents; 1 pound, $2.25.

RED WEATHERSFIELD—Dark red; good keeper; long and well known; strong flavor. Packet, 10 cents; 1 ounce, 20 cents. 1 pound, $1.15.

ONION SETS.

(Culture: 1 quart to 20-feet drill; 8 bushels to acre. Sow early in Spring or October 4 inches in row—rows 12 inches to 15 inches apart.)

We are the largest dealers in August and can supply, at wholesale, in largest quantity. If you order shipped by mail, add for postage 10 cents per quart to price.

DANVERS YELLOW—15 cents quart; peck, $1. bushel, $3.50.

WHITE SILVER SKIN—15 cents quart; peck, $1.25; bushel, $4.

SHALLOTS (Multipliers)—It buttons like onions at top and multiplies at root. Used for all kinds of seasoning. Sons of Winter. Sets are very tiny. Quart, 25 cents; peck, $1.25.

OKRA.

(Culture: 1 ounce to 50-feet drill; 10 pounds acre. Sow late in drills; drills 2 feet apart and leave one plant to every 10 inches.)

All okra seed must come from the South. We can supply in large wholesale quantities at first hands.

LONG GREEN—Tall stalks. Pods dark green. 2 papers, 5 cents; 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 50 cents.

NEW DWARF GREEN PROLIFIC—Early and will bear until frost. 2 papers, 5 cents; 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 50 cents.

NEW WHITE VIVI-VFET—Tender white pods. Pods round and smooth. Distinct variety. 2 papers, 5 cents; 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 50 cents.

PARSLEY.

(Culture: 1 ounce to 150-feet. Seed sow. Sow early. Spring to July. Thin out in drills to 4 inches.)

CHAMPION MOSS CURLED—Bright green. Beautiful variety. Papers, 2 for 5 cents; 1 ounce, 10 cents.

PARSNIP.

(Culture: 1 ounce to 150-feet drill. 4 pounds, 1 acre. Drill in Spring in rows 18 inches apart. Thin out to 6 or 8 inch in row.)

HOLLOW CROWN OR SUGAR—Long smooth roots. The best either for table or stock feeding use. Papers 2 for 5 cents; 1 ounce, 10 cents; 1 pound, 20 cents.

PEAS.

(Culture: 1 quart for 150 feet row; 1 bushel per acre. Peas can be planted here from January to August. Sow in single or double rows, 4 feet apart, 1 inch in row.)

EXPOSITION PRIZE—Magnificent Jumbo Pumpkin, the largest we know of. 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 60 cents.

PEPPER.

(Culture: 1 ounce to 1,500 plants; 4 ounces, 1 acre. Plant in early Spring in both or boxes. Set out in rows 2 feet apart, 15 inches in row.)

SWEET GOLDEN DAWN OR GOLDEN BELL—Bell-shaped; mild flavor; can eat like an apple; golden yellow; productive. 2 papers, 5 cents; 1 ounce, 10 cents.

BULL NOSE OR SPANISH MONSTROS—Favorite for pickling or mangos. Round and fleshy. 2 papers for 5 cents; 1 ounce, 10 cents.

LONG RED CAYENNE—Long, narrow red. Often dried and hung up on strings and used. Packet, 5 cents; 1 ounce, 25 cents.

RED CHERRY—Looks like a cherry. Used as pickles or dried as Cayenne. Packet, 5 cents; 1 ounce, 25 cents.

NEW CHINESE CELESTIAL—Chinese. Plant is beautiful and ornamental. Poutuse bearer. Peppers yellow, then deep scarlet. Packet, 5 cents; ounce, 30 cents.

POTATOES.

IRISH and SWEET. See under head "Field Crops."

PUMPKIN.

(Culture: One quart to 490 hills. Plant fields in March. Generally planted here in low lands amid corn.) 3 pounds for 1 acre.

IMPROVED CASHAW—Striped Crookneck. For pies and baking. Salmon flesh. Can be kept from one season to another. 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 60 cents.

ENGLISH SWEET POTATO PUMPKIN—Cream white; weighs 12 pounds; productive; will keep well through the winter. Dull yellow in early Summer. A fine dish, not appreciated in South. 1 ounce, 10 cents; 1 pound, 10 cents; 1 pound, 60 cents.

PUMPKIN FOR FIELD.

EXPOSITION PRIZE—Magnificent Jumbo Pumpkin, the largest we know of. 1 ounce, 10 cents; 1 pound, 20 cents; 1 pound, 60 cents.
RAPE or GEORGIA SALAD.
(Culture: One ounce to 150 feet; drill thick in Spring, sow 2 feet apart, or sow in August and September.) The best of Spring Greens when boiled. Thin out to 6 inches plants and cook. Afterward cut off remaining tops and use. Tops grow out again for cutting. 1 ounce, 10 cents; $1/2 pound, 15 cents.

RADISH.
(Culture: 1 ounce to 100 feet; 8 pounds to acre. Sow in drills in early Spring and to June for succession. Thin out as needed. Rows 12 inches apart. Sow in early Fall for Winter.)

LONG SCARLET SHORT TOP—2 papers, 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents; 1 pound, 70 cents.
EARLY SCARLET TURNIP—2 papers, 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents; 1 pound, 75 cents.
FRENCH BREAKFAST—Small, scarlet, olive-shaped. 2 papers, 5 cents; 1 ounce, 10 cents; 4 ounces, 20 cents; 1 pound, 65 cents.

SCARLET CHARTIER WHITE TIPPED—Handsome; long scarlet; very large size; not pithy; at top scarlet, deeper down pink, then white tipped. Packet, 5 cents; 1 ounce, 10 cents; 4 ounces, 30 cents; 1 pound, $1.

CHINA ROSE—WINTER SCARLET—Bright, rose color; flesh firm and piquant; fine for winter use. 2 papers for 5 cents; 1 ounce, 10 cents; 4 ounces, 25 cents; 1 pound, 16 cents.

WILLET'S MAMMOTH RADISH—Frequently weighs 6 to 9 pounds each. Originally imported by Agricultural Department, Washington. Now acclimatized here. White, hrm, long; radish; sometimes 16 inches long; top grows 4 feet high; used as salad is as good as Turnip. We have grown 4 crops within 12 months on same ground; the flavor is most excellent. Packet, 10 cents; 1 ounce, 15 cents; 4 ounces, 50 cents.

SALSIFY, or VEGETABLE OYSTER.
(Culture: 1 ounce to 60 feet; by all means grow this delicious vegetable. Sow thickly in Spring. Drill 12 inches apart. Cover seed 1 inch. When up thin out to 5 or 6 inches in row. Roots can stay in ground; good for use all Winter till Spring. Can also sow in September or October. A good market crop.)

NEW MAMMOTH SANDWICH ISLAND—The largest and the superior kind. Packet, 5 cents; 1 ounce, 15 cents; 4 ounces, 40 cents; 1 pound, $1.25.

SPINACH.
(Culture: One ounce to 150 feet; drill; ten pounds acre. For winter, sow in drills 1 inch deep, rows 9 inches apart, in September and October. Thin out by using for table. For Summer use, sow early in Spring. A good 'Truckers' crop all the year.)

BLOOMSDALE SAVOY CURLED LEAF—Large, bright green curled leaf. Stands worst winter. Packet, 5 cents; 1 ounce, 10 cents; 4 ounces, 15 cents; 1 pound, 40 cents.

NEW ZEALAND SUMMER—Scald and soak seed in hot water. Distinct. Grows well in hot weather. Packet, 5 cents; 1 ounce, 10 cents; 4 ounces, 30 cents; 1 pound, 60 cents.

LONG STANDING ROUND LEAF—Round thick leaf. Stands long while before seeding. 2 papers, 5 cents; 1 ounce, 10 cents; 4 ounces, 15 cents; 1 pound, 40 cents.

SQUASH.
(Culture: One ounce to 40 hills; 2 pounds, 1 acre. Sow in hills some time as Cucumbers and Melons. Bush varieties, 3 to 4 feet apart—running kinds, 6 to 9 feet apart. Winter kinds are to be stored through Winter—used as wanted—a standard dish in North.)

EARLY WHITE BUSH SCALLOP—Early, well known by all. Ships well. A Summer dwarf. 2 papers, 5 cents; 1 ounce, 10 cents; $1/2 pound, 20 cents; 1 pound, 50 cents.

SUMMER CROOKNECK—Early. Yellow fruit—Summer. Hard shell—warty exrescence. 2 papers, 5 cents; 1 ounce, 10 cents; $1/2 pound, 20 cents; 1 pound, 70 cents.

EARLY ORANGE MARROW—An improved Boston marrow—but two weeks earlier. Delicate flavor. Skin, deep rich orange. Packet, 5 cents; 1 ounce, 10 cents; $1/2 pound, 25 cents; 1 pound, 75 cents.

FORDHLOOK WINTER—Fine quality; thin skins. Can be used at any stage of growth in Summer, and at maturity kept through the Winter. Valuable new variety. Packet, 5 cents; 1 ounce, 10 cents; $1/2 pound, 25 cents; 1 pound, 75 cents.

TOMATO.
(Culture: 1 ounce to 2,500 plants; 3 ounces, 1 acre. Sow in hothouses or beds January or February. Transplant into open ground: when 2 inches high in open ground; pinch off ends. Succeeds 60 per cent. better when trained to sticks or frames.)

LIVINGSTON'S FAVORITE—Large; smooth; productive; good shipper. Does not crack open. 2 papers, 5 cents; 1 ounce, 20 cents; 4 ounces, 60 cents; 1 pound, $2.

NEW EARLY ACME—Pinkish purple; heavy bearer; round, solid, medium size. Bears till frost. Thin skin. 2 papers for 5 cents; 1 ounce, 20 cents; 4 pounds, 60 cents; 1 pound, $2.

MIKADO OR TURNER'S HYBRID—Large—1 1/2 to 2 pounds—smooth; solid; purplish red; peculiar foliage. 2 papers, 5 cents; 1 ounce, 20 cents; $1/2 pound, 60 cents; 1 pound, $2.

SELECTED PARAGON—A second early; bright crimson; resembles the Acme in size and shape; bears transportation; fine canning tomato. Papers, 2 for 5 cents; 1 ounce, 20 cents; $1/2 pound, 60 cents; 1 pound, $2.

GOLDEN QUEEN—Yellow flesh; superior distinct flavor; beautiful fruit. 2 papers, 5 cents; 1 ounce, 20 cents; $1/2 pound, 60 cents; pound, $2.

MANSFIELD TREE TOMATO—Great novelty; appearance attracts expression of surprise, no matter how often seen before, wonderfully productive and good eater. Packet, 10 cents; 1 ounce, 40 cents.

TURNIPS—SPRING SOWING.
(Culture: 1 ounce for 200-foot drill, 1/2 pounds, 1 acre. Our seed are the best American grown. Do not sell imported seed. Sow in drills 1 inch deep, rows 9 inches apart. Thin out plants to 6 inches apart. For Fall and Winter turnips, from July 20 to September 15.)

EARLY WHITE FLAT DUTCH—STRAP LEAF—Spring sowing. 2 papers, 5 cents; 1 ounce, 20 cents; $1/2 pound, 60 cents; 1 pound, 35 cents.

EARLY PURPLE TOP—STRAP LEAF—Spring sowing. 2 papers, 5 cents; 1 ounce, 12 cents, 1 pound, 55 cents.

TURNIPS—FALL AND WINTER USE.
WHITE EGG, SEVEN TOP (for Greens), YELLOW OR AMBER GLOBE, *WHITE GLOBE, WHITE NORFOLK, WHITE COW-HORN, *YELLOW ABERDEEN, WHITE SNOW BALL. 1/2 pound, 12 cents; 1 pound, 35 cents. All above marked * we put up also in papers, 2 for 5 cents.

TURNIPS—RUTA BAGAS.
YELLOW IMPROVED PURPLE TOP RUTA BAGA—2 papers, 5 cents; 1/2 pound, 12 cents; 1 pound, 35 cents.

WHITE RUSSIAN RUTA BAGA—Pure white; very large size; solid keeper; sweet flesh. 1/2 pound, 15 cents. 1 pound, 40 cents.

Miscellaneous Seeds and Seeds of Economical Plants.

PYRETHRUM CINERARIEAE FOLIUM.
True Dalmatian Insect Powder Plant Seed. Listed only by us. (The Persian P. Roseum and P. Alba making weaker powder; flowers, too, not blooming all at once like P. Cinerarieae Foliun.) Start in box or hot bed and set out. When the little composite flowers in buttons are blooming, pluck the button, dry in shade and afterwards grind or beat into a fine powder, and you have the Commercial Insect Powder (Dalmatian), of which it has been impossible to obtain seed, even by the United States Agricultural Department. The powder is an insecticide unequalled for house or plant use. We have grown it to perfection. Seeds tiny and light. Packet, 10 cents; 1 ounce, $1.50 (about 2,000 plants).

CASTOR BEAN.
Great industry in West U. S., making castor oil. One variety grows to enormous size and is ornamental as a plant; this we list. 1 ounce, 10 cents; 1 pound, 50 cents.

JAPAN OR ADZUKI BEAN.
A beautiful, tiny red bean with white eye; 300 beans to ounce. Tall plant; full of tiny pods which pop as they dry, scattering seeds; fine for fowls, which are turned in patch. Makes pods till frost; useful; ornamental. 1 pound, 25c., will plant 1-10 acre.

WATER GOURDS.
With long handles, bold 1 pint. Packet, 10 cents.

SUGAR TROUGH GOURDS
Immensely size, hold 3 or 4 gallons. 1 ounce, 10 cents.

LUFFA ACUTANGULA, OR DISH CLOTH Gourd.
Eat before maturity like squash. The dried interiors are sponge-like and durable—good for bath, washing, scrubbing, messaging purposes and soda. The immense vines can be trained to wall or arbor. Packet, 10 cents; 1 ounce, 50 cents.

JUTE.
Annual. The fibres of plant make Jute for coarse sacks. Immense industry in China, Japan and East Indies. Grows now in parts of South. Can be roughly broadcasted 1 pound to acre. 1 ounce, 10 cents; 1 pound, $1.

RAMIE.
Silk China Grass (Urtica Nivea). Grow in hotbeds or boxes and transplant 4 feet by 4 feet. When plants are 4 feet high bend down and cover with earth—will start in every direction. Tills largely—8 to 10 stalks to a hill. Roots once started last forever. The United States Agricultural Department have been intensely interested in this plant, believing that so soon as a practical decorticator is discovered for the fibre, this industry will rival cotton growing. Stripped of bark the long fibres are useful on plantation. Packet, 10 cents.

PECANS.
We list only the long (14 to 2 inches) Soft Paper Shell Variety @75 cents pound. Grow as easily as hickory woods. An acre or so of these grown trees would be invaluable. Simply plant pecans and transplant shrubs.

RUSSIAN SUNFLOWER SEED.
Sow until August, 5 pounds, 1 acre. Great improve- ment over the small Sunflower. Some 15 inches in diame- ter. Ornamental. Large seeds. In Russia used for oil. Known here as the best of all poultry foods—40 to 54 bushels per acre. In cities it is the parrot's feed. 1 pound, 7 cents; 1 pound, 15 cents; 5 pounds, 50 cents.
FORAGE CROPS

The South has a world of wealth in her varied Forage Crops. Their usual culture is simply to sow in April thinly in drills—rows three to four inches apart—cutting the plant and feeding it when 2 or 2½ feet high, and recutting as it grows out; or 4 or 5 cuttings a season. Write for bushel prices.

EARLY AMBER SORGHUM—Almost a Trinity plant; three most distinct cultures: 1st. Green Forage. 2d. Cutting it when ripe and saccharine and feeding it to stock, or storing it for them. 3d. Grindng it for syrup. This is the earliest Sorgum. 50 pounds to bushel. Sow 10 pounds to 1 acre. 1 pound, 10 cents; 10 pounds, 1 acre, 75 cents.

EARLY ORANGE SORGHUM—Yields heavier than Amber. Syrup, too, is finer flavor. Georgia Experiment Station makes total three cuttings green Forage per acre, 42,016 pounds. Weight and price same as Amber.

WHITE KAFFIR CORN—Fifty pounds to bushel. Total three cuttings, Georgia Experiment Station, 32,032 pounds green forage. Branches at top of stalks, making 8 or 4 heads. When cut several shoots come up from one stalk; grows after repeated cuttings till frost; invaluable when sown with Peas after Oats. Holds peas up. Easy cutting. Makes 50 bushels seed per acre. Cattle fond of it. Seed also ground like meal for batter cakes. Plant 5 pounds to 1 acre. 1 pound, 20 cents; 5 pounds 1 acre, 60 cents.

JERUSALEM CORN—50 pounds 1 bushel. Total 3 cuttings Georgia Experiment Station 27,229 pounds per acre. Grows 3 feet. The best of all in dry seasons. Has sometimes as many as 8 heads to 1 plant. Grain flat and pure white. Excellent for hominy, meal or splendid for stock feed. 1 pound, 18 cents; 5 pounds for 1 acre, 60 cents.

WHITE MILLO MAIZE, or BRANCHING DHOU-RA—Total 3 cuttings green forage at Georgia Experiment Station 51,792 pounds per acre. Suckers from all lower joints; has bush-like form. Makes 50 bushels seed per acre. Plant per acre and price same as Jerusalem Corn.

PEARL OR CAT-TAIL MILLET (Penicillaria Speciosa) — Total of 3 cuttings green forage from 3 cuttings at Georgia Experiment Station, 52,416 pounds per acre.

Possibly the best known of all the millets; stands at the ground; thick foliage; heads are not eaten. 1 pound, 25 cents; 5 pounds for 1 acre, 75 cents.

TEOSINTE (Zuchleria Luxurians)—Many growths per season. Mississippi Experiment Station reports 50 tons per acre green forage product. This is an early variety. One seed makes 20 to 50 stalks. On rich land grows 15 feet high and produces a larger amount forage than any known plant; 10 per cent saccharine. Sows in Florida but not Georgia. Plant in April, 6.5 feet; cultivated as corn. 1 ounce, 18 cents; 5 pounds 10 cents; 1 pound, $1.50. 3 pounds, 1 acre.

EGYPTIAN WHEAT—Seed are scarce. Not often listed on this account. The agricultural papers 2 years ago were full of praise for this forage plant. Stalks make finest green forage; many cuttings; attractive for its seeds, which give branching heads—10 or 12 from 1 stalk. Best grain for poultry feed. Plant per acre and price same as Cat-Tail Millet.

SACALINE (Polygonum Saccharinum)—Which will be remembered as the great 1895 Sensation plant from Russia—said to grow in all soils and all climates, and to produce more forage than any other known plant. Result thus far to swimmers has been disappointing. Those who wish further investigation can get seed of us, 10 cents per ounce. Two ounces make 100 seed. Plant in both beds and transplant. Plant and roots never die.

DWARF VICTORIA RAPE—In England and Germany this is the universally grown Forage crop. Sown for pasturing lambs and sheep, and also for cows—so crop there equals its. No crop is so fattening—a lamb growing 7 or 8 pounds a month. Sow 5 pounds to 10 pounds per acre in Spring or Fall—broadcast or drill in damp lands—drill in rich uplands. 1 peck, 20 cents; 5 pounds for 75 cents.

HOG CROPS.

Hog growing is an absolute necessity to Southern farmers. They can compete with other portions of our country by growing the following. Just about us these crops attain their highest development. Can supply largest quantity.

JERUSALEM ARTICHOKE—Widely advertised as a Hog Crop. Good land should make 300 bushels. Even in 5 feet rows, 200 bushels from row or row and one third the underground being a network of Artichokes. Tubers will stay in ground all Winter and not freeze. Turn in hogs any time. One acre should fatten 30 hogs. If not eaten too soon, crop will come up in Spring. Cut and second planting. Used also for pickles. Cut tubers like Irish potatoes, and plant after frost—1 piece every 8 feet, in 4 or 5 feet rows. 5 bushels, 1 acre. Peck, 60 cents; 1 bushel, $1.50. 8 bushels, $1.25.

CHUFAS—Fifty-four pounds 1 bushel. Soak seeds one week. Plant 1 peck to acre. Plant 12 inches apart in rows 1½ feet apart. Give two plantings and hoedings. If you get a bad stand pull out shoots from growing plants and plant and use those. Indeed, many growers like sweet potatoes and transplant the slips. Chufas grow just under the surface, like all grass nuts. Invaluable for fattening hogs. Turn hogs in patch. Mature in September and lie in ground till eaten. Very prolific, sweet and nutritious. We are chufa enthusiasts. 4 pounds, 50 cents; 1 peck, $1.

COLLARDS—LONG STEM TRUE GEORGIA—An excellent hog crop—too little used as such. See under Garden Seeds.

SPANISH PEANUTS—Grows to perfection about us. A great advance in Peanuts and much written about as a hog crop; 200 bushels per acre. Plant about one bushel to acre. March to July. Follow after oats, or plant two crops, March and July, on same ground. Sweet Peas for eating, surpassing Virginia. Small; no pods. Plant close in sandy lime lands. The tops are good forage. Peas easily hauled per acre. Sow Peas hang to root plants is pulled up. Hogs can be turned in or the whole vine can be fed from the storage barn. 1 pound, 15 cents; peck, 50 cents; 1 bushel (24 pounds), $1.50.

SORGHUM—AMBER AND ORANGE CANE—Largely used in ripened state from the field or after being stored. See under "Forage Plants."
SOJA BEANS (Soja Hispida)—Can be sown broadcast, bushel to acre, or in drills, 3 beans to hill, 150 to the row, 3 feet rows. The heads are much eaten in Japan. Our Georgia Experiment Station places a high forage plant value upon them, high as Cow Peas. Sowing should be done in April. In Can be cut entire or stock turned in to feed. Nutritious. 1 pound, 15 cents; peak, 90 cents; bushel (60 pounds), $3.

J. F. Guilmartin, of Soren Co., Ga., says: "Have grown 63 bushel per acre. Large yield of fodder as well as beans. Cure without trouble, 5 feet high and beans from first branch to top. More stuff on them than anything that have ever grown."

NEW JAPANESE BUCKWHEAT—More productive, larger than wheat straw and more branching than ordinary kind. Flowers attractive for bees. Pound, 20 cents; peak, 60 cents; bushel (45 pounds), $2.

BARLEY—Georgia raised. Write for prices.

EVERGREEN ROOM CORN—42 pounds to bushel. Best variety. Drill seed—3 feet rows—10 pounds to 1 acre. Yield per acre, 500 bushels. 42 bushels of hulks of seed. 1 pound, 15 cents; 10 pounds, 1 acre, 75 cents.

FIELD CORN.—We make a specialty of Field Corn. 5 quarts to acre; 1 bushel, 56 pounds; unshelled, 70 pounds. Write for Wholesale straw. Good for fodder. 1 bushel, $1.75.

PENNSYLVANIA WHITE DENT CORN—The Dents (or tooth), are our earliest Corns. Well known. 2 quarts, 25 cents; peak, 60 cents; bushel, $1.75.

IMPROVED GOLDEN DENT—Many prefer a yellow grain. The most popular of early Corns. Large amounts are yearly sold. 2 quarts, 25 cents; peak, 60 cents; bushel, $1.75.

ROCKIE'S PROLIFIC CORN—Originated by late Gen'l. Cocke. The best Corn known in Virginia. Finely white, heavy, large, tall stalks. Much grown. Two ears. In swamps it has grown 140 bushels shelled Corn per acre. 2 quarts, 25 cents; peak, 60 cents; bushel, $1.75.

SHAW'S IMPROVED CORN—Medium early; extra large white ear. Bulletin 25, Georgia Experiment Station out of 15 varieties tested gives Shaw Corn as having the heaviest yield per acre. The demand through the Experiment Station has been so great that the demand last year could not be supplied. We have will stock and in quantity can give lowest price. 2 quarts, 25 cents; peak, 65 cents; 1 bushel, $2.00.

POP CORN—Pearl and White Rice, 15 cents pound.

COOKIES COTTON SEEDS.—We are in a position to quote highest grade Cotton Seeds in largest wholesale quantities. 30 pounds.

JONES IMPROVED COTTON—In 1870 Mr. J. F. Jones, of North Georgia, imported some seeds from Algiers, on the Mediterranean Sea. Plant had no limbs, but immense bowls were attached all over the stalk. The variety thrives in a hilly climate, and if with other Clusters Cottons. For five years the United States Agricultural Department distributed this seed, ex-Commissioner Loring going to Jones Farm to look at the crop. The Georgia Experiment Station Bulletin 27, 1894, gives it the highest record of all for yield, receiving the Station's highest endorsement. Branches widely. Nine seed to bowl; 6 times 5 locks to bowl; 50 bowls to 1 pound Seed Cotton; 1.250 pounds, and 25 Cotton to 500-pound bale. Fruits on limbs and stalk. Large seed; strong staple. A Connecticut thread mill takes Mr. J.'s crop (20 bales Cotton to mule in 1895) direct. We are Mr. J.'s agents, our seed grown and branded by him. We...
GRASSES.

Grass Seeds fluctuate a great deal in price. Write for prices in large amounts. State quantity you want or number of acres to plant.

CALIFORNIA BURR CLOVER (Medicago Macr-
ata)—Ten pounds to bushel. An annual, winter grow-
ing, pasture seed. Good for hay, seed and turn-
grass. Will not remain in pods long as Iron and
Everlasting Pea will not remain in pods long as Iron,
but has all the other peculiar valuable distinguishing

THE MILLER—Peas, reddish clay, and very small-
est of the Everlasting with same qualities as Iron. 
Iron and Miller are the most used of Everlasting Peas 
among us. All the Everlasting Peas are practically 
weevil proof and proof against rotting.

RED RIPPER—Large, full, red Pea. Yellow pell
Purple blossom. Vigorous, recurrent vines—late matu-
ing. Georgia Experiment Station: 1 acre produced 23,256 
pounds green hay—27 bushels Peas. 35 cents peck; $1 
bushel.

CLAY—Yield, Georgia Experiment Station, 20,646 
pounds green hay, and 34¼ bushels peas per acre. 
Yellow pods; cream color or clay peas; late; tall, erect 
vines; standard. Peck, 35 cents; bushel, $1.00.

WHIPPORWILL OR SPEECKLED—Early Pea. 
Georgia Experiment Station: 23,845 pounds green hay, 
and 35–10 bushels peas; old variety; tall, upright; 
yellow pod; brown speckled pea. Peck, 35 cents; bushel, 
$1.00.

FIELD WHITE TABLE PEAS—Easily sold; profit-
able crop; yield at Georgia Experimental Station, 21 to 27 
bushels per acre. We list the following:

THE MUSH TABLE PEAS, SUGAR CROWDER 
PEA, LADY PEAS, BROWN-EYED SUGAR, LARGE 
WHITE BLACK-EYED PEAS. 12 pounds for 1 acre, 
60 peck; 75 bushels; $2.00.

UPLAND PEARL OR CAROLINA RICE—44 
pounds to bushel. In April or March, 1 peck to acre, 
covering 1½ inches, or drop 12 seed in hill 12 inches apart. 
Rows 3 feet apart; plant in stiff land; damp is best; profit-
able crop largely grown around Augusta; best prices from 
our largest dealers; yield 20 to 30 bushels in upland, and 
30 to 60 in lowland. 1 peck, 60 cents; 1 bushel, $1.75.

NEW JAPAN RICE—(Upland). Flatter and shorter 
than Carolina. All rice stools, 15 to 20 stools from 1 
grain seed; Carolina does its stooling in 2 or 3 weeks, 
this variety may take from 5 to 10 weeks. This variety 
may affect total crop. The Japan stools successively from 
June 20 to September 15, thus takes advantage of all the various wet 
spells; seed mature at different dates, remaining on stalk; 
2 crops can be had, as seen on small crop; but because of 
this various stooling they would only be half crops; cut about 
October 1. Peck, $1; bushel, $3.

GEORGIA RYE—KILLINGSWORTH'S—Plant in 
September or October; 1 bushel, 56 pounds, per acre for 
grazing—for seed, 1 peck to 1 bushel; grows 5 to 6 feet; 
hardy; does not make much leaf, small, but uniform; 
very superior kind. Peck, 50 cents; bushel, $1.50.

TOBACCO SEED—One ounce will make 5,000 plants; 3 
ounces for an acre.

Our seed from Mr. Ragland, the best known grower in the 
United States, he selects for us these varieties as the best. 
No Southern planter should buy a pound of Tobacco 
this year. Plant seeds in beds from January to March. 
Transplant in hills about May 1st.

Hester *
Sweet Oordo. 
Long Leaf Coach. 
Big Havana, or Cuban for Cigars. 
One ounce, 25 cents; 5 ounces, $1; pound, $2.

WHEAT—Our best seed wheat comes yearly from Vir-
ginia. We list the following leading varieties, 60 pounds to 
bushels.

FULTZ RUST PROOF BEARDED. FULCAS-
TER BEARDED—(Very hardy). RED MAY—Small 
grain. RED MAY—Large grain. All $1.50 bushel. Get 
price on large amounts.

Per pound, 40 cents; 4 pounds for 1/4-acre for $1.40. Get 
bushel prices.

RED CLOVER (Trifolium Pratense)—Sixty pounds 
to bushel. Sow broadcast in September or October, 16 
pounds to the acre, or sow with any Spring grass as early 
as possible is best for grazing. Needs a stiff soil, The 
most widely cultivated of all pasture plants for pasture-
ground, hay, and enhchunk of soil. Price, 50 cents, 20 pounds 
4 pounds for 1/4-acre, 60 cents. Get bushel price.
SCARLET, or CRIMSON CLOVER (Trifolium incarnatum)—Sixty pounds to bushel. An annual, and the best for the South. Withstands both heat and cold. Used for summer cover. Will need to be sown on thinner lands, and any lands but wet. Can be cut for green food in April or May, or for hay, or for polishing undug. Drills should be put an inch deep. To make 100 bushels, 5000 seeds are necessary. It grows during Fall and Spring months. Can be sowed in growing corn after last working. Green manuring is one of its chief advantages. From June to November, but Fall and Spring 2 bushels to acre. 1 pound 15 cents; 10 pounds, $1.25.

HERDS OR RED TOP (Agrostis alba)—10 pounds to bushel. A good perennial, generally known as a permanent pasture crop. It has no need of much attention. It is a hardy kind and is sown down close as a forage plant. Not killed by overstock; improves with age each year. Chief value is when made part of Grass Mixtures for Fall and Winter. Spring 2 bushels to acre. 1 pound 15 cents; 10 pounds, $1.25.

GERMAN MILLET OR GOLDEN MILLET (Sesamum indicum)—50 pounds to bushel. Sow 35 pounds to acre. Sow broadcast after Oats in Spring on rich ground. Can be sown before Oats when they are up. The best sowing is 2 to 4 tons per acre. 1 pound 5 cents; 10 pounds, 50 cents. 1 bushel, $1.75. (Prices for bleaching are given elsewhere.)

ORCHARD GRASS (Dactylis glomerata)—14 pounds to bushel. Sow 2 bushels per acre fall or Spring. An excellent perennial. Commences Spring growth in February, ready for hay cutting in April. Grazes then till hot Summer. Early Autumn starts new set of leaves, making rich pasturage, remaining green all Fall and Winter. Mixes well with Red Top. A good woodland pasture. No other winter pasture lives on, well, on the clay lands. One pound, 20 cents; 1 bushel for 4 acre, $2.50.

GIANT BEGGAR WEADE (Desmodium Molle)—20 pounds to 1 bushel. Drill or broadcast 5 to 10 pounds as sandy lands after frost. Can be cut several times in Spring and Fall. Equal Cow Peas as a soil renovator. 3 to 6 feet in length. Deep roots. Can be sown in Corn field. Interferes with no crop; easily kept under by cultivation. Eradicated by grazing two successive seasons.

What the Commissioner of Agriculture of Florida says of this valuable plant:—

What Beggars Weed has been to Florida what Clover has been to Tennessee and Kentucky, and Peas to Georgia and Alabama. But it is superior to either, in that it will thrive on much poorer land than either of the above, and it never requires grazing in the Fall and Winter. It is more resistant to stock of all sorts than any forage plant known; besides, it improves and enriches the land each year on which it grows, and this without the expense of turning it under as the pease do.

Small seed; cover only 1 inch deep. 1 pound, 45 cents; 2½ pounds. $1.25, 6 pounds, $4.30 per acre. Tall Meadow oat grass (Avena sterilis). Eleven pounds to bushel, perennial. Sow 22 pounds per acre in Fall or Spring. Grows 2 to 5 feet. Sometimes called Evergreen grass. Resists drought and cold. Good hay. Can be cut three times, when in bloom. Combines well with clover, and is easily mowed. Grows well in pastures. Combination planting is best. Summer and Fall Sow on same lands as Orchard Grass. Some prefer it to Orchard Grass. 1 pound, 30 cents; 6 pounds, 1 dollar, 40 cents.

HUNGARIAN or AWNLESS or SMOOTH FERME CASS (Bromus inermis)—Fourteen pounds to bushel. Sow in Fall or Winter, or March, 25 pounds to acre. A Russian perennial grass, which withstands Summer heat and our frosts. Fresh and green most of the year. Covers ground evenly. At its best late Fall and early Spring for pastureage. Rich soils best, but growing also on barren soils. Better for grazing than hay. 1 pound, 30 cents; 7 pounds, $1.25.

SCHRADER'S or RESCUE GRASS (Bromus unioloides)—Fourteen pounds a bushel. Sow 22 pounds per acre in August or September. Known also as Arctic Grass and Australian Oats. Annual, but if grazed or mowed cleanly it will last a second year in pastures. Sow in October and November. Ripens seed in April and May. On thin lands 12 to 16 inches high; rich, damp land, 3 feet high. Grows out quickly after being grazed from November to May. For the third crop it is best to till. Let third crop grow—it will make enough seed to stock field next year. 1 pound, 35 cents; 7 pounds, $2.50.

VETCH (Vicia sativa)—Sixty pounds to bushel. This is the best Hay Grass for Hay farming around Augusta. Some allow first crop to get out of hand before. Enough Seed fall to the ground for re-seeding purposes, to come up next February. The second crop is best. Sow in Spring and September with Peas or Oats, to be cut into sheaves. Grows well with Bermuda and Johnson Grass. Vetch is unexcelled for Winter pastureage. One bushel to the acre will set a crop. Plants or so in August and September with Oats, or sow in Spring. Can supply
native or imported Seed—the former, while higher, are far better and cheaper in end. 1 pound, 15 cents; 1 bushel, imported, $4; finest native, $3 a bushel; 15 pounds for 1 acre, $1.50.

HAIRY VETCH (*Vicia Villosa*)—The United States Agricultural Department says: "This is the most valuable Winter-forage plant which the Department has imported for rich soil." Ex-Congressman Geo. D. Tillman, of South Carolina, says: "The best of all the hundreds of grasses tested by me. I plant in Fall, pasture from November to April 1st—by June it reseeds itself; then plow under; sow peas and cot peas. Vetch is up by December. As a hay crop 2 or 3 cuttings can be had. Sow 1 bushel, 60 pounds, to acre in Spring, August or September or October. Spring sowing soon makes dense crop. Vines 5 to 10 feet long sometimes and foliage 2 or 3 feet deep. Can be made to reseed itself like ordinary Vetch, above. 1 pound, 15 cents. ½ acre 15 pounds for $1.40.

LAWN AND PARK EVERGREEN GRASS—We have the best mixture we know of. 14 pounds to bushel. 1 pound seed, 35 cents; plants plant 20 x 30 feet.

PERMANENT PASTURES—Our formula are those of the best Experimental Stations—made for permanent pastures, and made for merit and not cheapness. They cannot (being seed) include Bermuda or Texas Blue Grass. Order by number. Quantity and price given are for 1 acre's sowing:

NO. 1—FOR LIME LANDS—25 pounds for $3.50.
NO. 2—FOR MOIST BOTTOMS—27 pounds for $4.08.
NO. 3—FOR CLAY OR LOAM—26 pounds for $4.75.
NO. 4—FOR SANDY PINE LANDS—24 pounds $4.75.
Matthews Garden Gem Seed Drill.

Manufacturers Price Boxed, $7.00; Our Price $6.50.

This has been perfected to meet the demand for a good Seed Drill at a low price. The Seed Dial, Patent Indicator having names thereon, and Improved Marker's, are same as used on more expensive Drills.

New Universal Double Wheel Hoe.

CULTIVATOR, PLOW AND RAKE.

Manufacturer's Price Boxed, $7.50; Our Price, $7.00.

This is specially designed for working both sides of the row at one passing, but can also be used successfully between rows. The variety of attachments recommend it for all kinds of vegetable garden work, and it is a great labor saver.

SIGNS OF THE ZODIAC.

It is thought by some that these Signs affect certain parts of the body at certain times of the year. The picture below represents the Signs and the parts of the body they are supposed to govern.

Aries, the Ram, The Head and Face.

Leo, The Lion, The Heart.

Virgo, The Virgin, The Bowels.

Pisces, the Fishes, The Feet.

To Know Where the Sign is.—First find the day of the month, and against it, in the column that shows the Moon's place, you will find the Sign that shows the part of the body supposed to be governed.

LAND'S HEADACHE CAPSULES.

Easily mailed all over the United States. Harmless; Cure by count 36 out of 37 cases. 1 box (12 capsules) postpaid, 25c.

HOWARD & WILLET DRUG CO.,

AUGUSTA, GA.
Baking Powder materials have fallen in five years just one-half in price! So has cotton, wheat and a thousand things! Every 50c. a pound Baking Powder on the market to-day can be put up at a good profit for 25 cents. Now why throw away 25 cents in buying 50 cent Baking Powders?

EAGLE BAKING POWDER COST 25c. Lb.
But it is a High Grade Powder; the equal of the best. Its price is simply based on the cost of materials to-day, and not their cost ten years ago, as is the case with all 50 cent powders. Insist that your grocer send you EAGLE BRAND. ½ lb. 10c.; ¼ lb. 15c.; 1 lb. 25c; postage 16c. per lb.

AUGUSTA, GEORGIA.
That's a Horse or Mule who dies of Colic. Dead loss, $125.00. Can you afford it? If not, we say honestly you will never lose an animal in your life by Horse Colic if you will but use

**HOLLEYMAN'S COMPOUND Elixir for Horse Colic, 50 CENTS.**

It will Cure any Case of Horse Colic Under the Sun. Don't Wait Until Your Horse Dies Before You Buy a Bottle.

CAPT. R. H. WALKER, Appleton, S. C., says he saved three horses' lives on his farm in 60 days, and that it is worth its weight in actual gold to every farmer.

J. F. A. TUFTS, a drummer, saved three horses' lives on a thirty days' trip from his sample bottle.

S. A. GRAY & SON, Waynesboro, Ga., "Have used Holleyman's Elixir for eight or nine years. As a preparation for Colic in Horses and Mules we believe it to be unequaled."

W. H. JONES, Stellaville, Ga., says: "I have been using Holleyman's Elixir one year, and saved several horses lives. It never fails in Horse Colic."

S. S. SANDERS & CO., Egypt, Ga.: "Have sold it and used it; it is all it's claimed to be. It's effect is magical.

We have crowds of testimony from Doctors, Veterinary Surgeons, Merchants and Farmers.

It is an ABSOLUTE SPECIFIC for Aggravated Cases of CRAMP COLIC IN MAN. It is too Strong for Children.

CHRONOLOGICAL ERAS, CYCLES, ETC., FOR 1896.

The year 1896 comprises the latter part of the 120th and the beginning of the 121st year of American Independence, and corresponds: To the year 8509 of the Julian Period; to the year 7401-3 of the Byzantine Era; to the year 5656-7 of the Jewish Era—the Jewish new year 5657 begins at sunset September 7, 1896; to the year 2649 since the foundation of Rome, according to Varro; to the year 2336 of the Japanese Era, and to the 229th year of the period entitled “Meiji.” The year 1314 of the Mohammedan Era, or the Era of the Hegira, begins on the 12th day of June, 1896. The 1st day of January, 1896, is the 2,413,560th day since the commencement of the Julian Period.

ASPECTS OF THE PLANETS.

The planet Venus is Morning Star till conjunction, July 9th; then Evening Star to the end of the year.

The planet Mars is Morning Star until opposition, December 11th; then Evening Star the rest of the year.

The planet Jupiter is Morning Star until opposition, January 24th; then Evening Star till conjunction, August 12th; then Morning Star the rest of the year.

The planet Saturn is Morning Star until opposition, May 6th; then Evening Star until conjunction, November 13th, then Morning Star the rest of the year.

ECLIPSES FOR THE YEAR 1896.

In the year 1896 there will be four Eclipses, two of the Sun and two of the Moon.

I. An Annular Eclipse of Sun February 13th; invisible here.

II. An Partial Eclipse of the Moon February 28th; not visible here.

III. A Total Eclipse of the Sun August 8th; invisible here. Visible to northeastern Europe, Northern Asia and portions of the Pacific Ocean and Alaska.

IV. A Partial Eclipse of the Moon August 22d and 23d, visible in Augusta as follows:

<table>
<thead>
<tr>
<th>Eclipse begins</th>
<th>D.</th>
<th>H.</th>
<th>M.</th>
</tr>
</thead>

</table>

EXPLANATION OF SIGNS.

⊙ ♍ ♅ means the conjunction of Venus and the Moon, or that they are near together.

♂ ♃ ♅ means the opposition of Jupiter and the Sun, or that one rises about the time the other sets.
Anti-Shake Chill and Fever Cure.

WARRANTED TO CURE.

We have never known one case of Chills and Fever which this Remedy failed to cure. Have known cases where other remedies failed to cure. No matter how obstinate and long standing is the case,

ANTI-SHAKE CURES.

In all of our Southern Malarial districts, a tablespoonful taken occasionally at night will ward of Malaria, and prove, too, a valuable Tonic for the system. Take also for

BREAK-BONE FEVER and LaGRIPPE,

A GREAT HOST OF DOCTORS.

In Georgia, South Carolina, North Carolina and Florida, use it exclusively. We honestly believe it to be the STRONGEST BLOOD MEDICINE in America. One bottle is worth more than a half dozen bottles of any so-called Sarsaparilla Remedies.

LAND'S BLOOD MEDICINE

Is made from Stillingia, Fringe Tree, Poke Root, Burdock, Prickly Ash and Blue Flag—all the virtues completely extracted in a suitable menstruum, and each dose contains 10 grains Iodide Potassium and Sodium.

The Most Awful Cases of Syphilis; The Most Painful Cases of Rheumatism; The Most Disfiguring Cases of Scrofula; The Most Distressing Cases of Catarrh.

Succumb to LAND'S BLOOD MEDICINE

We have published a whole Book of Testimonials from Doctors who use it. Can only print one here.

Carlton, Ga., July 21, 1893.

The Howard & Willet Drug Co., Augusta, Ga.; Gentlemen—I have used LAND'S BLOOD MEDICINE in Chronic Rheumatism, Scrofula and Syphilis, and got better results than from any medicine I have ever used.

Yours, etc.,

O. L. Deadwyler, M. D.

PRICE, $1.00 and $2.00 PER BOTTLE. Manufactured by THE HOWARD & WILLET DRUG CO., AUGUSTA, GEORGIA.

Sick, Periodic, Neuralgic, Spinal, Nervous, Bilious, HEADACHES!

Land's Headache Capsules CURE ALL THESE.

It's like Magic. Ten years ago this was impossible. To-day curing Headaches is as easy as curing thirst or hunger.

IT'S A STINGY MAN

Who will allow his wife or child, or himself, to suffer all day with a headache, when 25 cents invested in Land's Headache Capsules would drive away one dozen Headaches. 25 cents post-paid per box of one dozen Capsules. Manufactured by HOWARD & WILLET DRUG CO., Augusta, Ga.

DON'T SCRATCH!
To avoid this

USE
TETTERINE.
The only painless and harmless cure for worst kind of Eczema, Tetter, Ringworm,
ugly rough patches on the face, crusted
scalp, ground itch, chafes, chaps, pimples,
poison from ivy, or poison from oak, in
short ALL ITCHES. Send 50 cents in
stamps or cash to
J. T. SHUPTRINE, Savannah, Ga.,
for one box if your druggist don't keep it.

July 26th, 1886,

J. P. SHUPTRINE, Savannah, Ga.

Dear Sir—I wish to forward six boxes of Tetterine to
me by express O. D. O. I think strange that it is not
sold here in New England, as it is the best cure for
Eczema, Ringworm and all eruptions of the skin I have
seen. I wanted to get a box from a druggist who
bought it in Cincinnati. I gave part of it to a young
lady who had tried almost everything to remove pimples
and eruption from her face. Two applications com-
pletely cured her after doctoring for years for it.

I know of another case where a gentleman was com-
pletely covered with Eczema, which I saw myself, and
two boxes made a perfect cure. His skin is now as
smooth as a baby's.

This is for a trial, as I know I can sell it readily.
Yours truly,

P. O. HANLON
with Silver Spring Bleaching Co., Providence, R. I.
Sold by Howard & Willet Drug Co., Augusta, Ga.
Price 50 cents per box postpaid.

TRY TAYLOR'S PREMIUM COLOGNE—The Most Lasting and Refreshing of all Perfumes.

Mothers Save Your Children by the Use of TAYLOR'S CHEROKEE REMEDY OF
SWEET GUM AND MULLEIN.
A Sure Cure for Croup, Whooping Coughs, Colds, Coughs, Hoarseness, Con-
sumption, and all Affections of the Throat and Lungs.

Hon. J. C. Key, of Jasper County, Ga., writes: "Sweet Gum and Mullein is the best preparation I have ever
used, and the first thing that has given me any relief. I recommend it cheerfully to all suffering from coughs and
colds."

Professor of a Medical College: "It affords me great pleasure to testify to the wonderful powers of Sweet Gum
and Mullein as a remedy for all Chronic Coughs. A slight inflammation of the lungs or bronchial tubes, if neglected
for ever so short a time, tends to the most dangerous form of lung diseases. It is known to the medical profession
that thousands who die annually with consumption owe their deaths to neglected colds. As a preventive remedy
as well as a curative agent, I cheerfully commend your preparation of Sweet Gum and Mullein to the public.

J. F. HAMMOND, Professor Clinical Medicine,
Georgia Electric Medical College, Atlanta, Ga.

HALTWANGER-TAYLOR DRUG CO., Atlanta, Ga. For sale by all Druggists.

Children Teething can be Positively Cured by using
Dr. Biggers' Huckleberry Cordial,
THE GREAT SOUTHERN REMEDY.
It is a Vegetable Remedy which cures without Constipating. It cures Dysentery, Bloody Flux, Diarrhoea,
Choler Morbus, Stomach Cramps, Cholera Infantum, Summer Complaints, and all disorders of the Bowels or
Stomach.

The Walter A. Taylor Company, Atlanta, Ga.—Gentlemen: One of the best medicines in the world for bowel
troubles is Dr. Biggers' Huckleberry Cordial. It cured me when all other medicines failed. I advise every family
to keep a bottle of this in ready use, for it cures all bowel troubles.

J. T. BEES.

Mrs. S. E. Kennedy, one of the oldest and best known nurses in Georgia, writes: that she had heard so much
of the wonderful effects of Dr. Biggers' Huckleberry Cordial, that she was induced to try it to her family, and
states it is the best preparation she has ever known, and does not hesitate to recommend it for children teething,
even when they have become so emancipated by the gradual wasting away by not being able to retain nourishment.

HALTWANGER-TAYLOR DRUG CO., Atlanta, Ga. For sale by all Druggists.

Send 2c. Stamp for Riddle Book.

TAYLOR'S PREMIUM COLOGNE has never failed to take the Medal at the different Fairs ever all competi-
tion. Every lady should have bottle on her toilet table. Price 25 cents and $1.00.

A Wonderful Discovery. A Disease Killer
Believe and Live; Disbelieve and you may Die.
Ask your druggist to get you a bottle of SWAMP ANGEL MEDICINE, the greatest Pain and Germ Killer in the world. Could publish 1,200 letters like the following.

A Wonderful Recovery.
KELLER, Bryn Co., Ga., April 5th, 1885.
Swamp Angel Medicine Co., Washington, D. C.

Gentlemen: Please send me $2.00 worth of your Swamp Angel Medicine. It is the best medicine I have ever used, and my family can't do without it. My mother has been confined in bed for three months with the most dreadful cough I ever saw any one have. I commenced giving my medicine, and in three weeks she was cured of the cough and able to go visiting.

Respectfully,
MRS. F. W. J. YOUNG.

WHAT IT CURES.

Johnson's Chill and Fever Tonic is Guaranteed to Cure
1st. Chills and Fever.
2d. Bilious Fever.
3d. Typhoid Fever.
4th. Hemorrhagic Fever.
5th. Dengue Fever.
6th. Measles.
7th. Neuralgia.
8th. La Grippe.

NOTHING ELSE.

Costs 50 cents a bottle if it cures the above diseases, and not one single cent if does not.

"BROWN'S BRONCHIAL TROCHES."
As a simple yet effective remedy for Coughs, Colds and Bronchial Affections, "Brown's Bronchial Troches" stand first in public favor and confidence. They are absolutely unrivaled for the alleviation of all throat irritations caused by cold or use of the voice. For nearly fifty years they have been recommended by physicians and widely used, being known all over the world as one of the few staple cough remedies. Sold only in boxes. Retail price, 25 cents.

LOOK AT YOUR FACE! Now Read This

ROSE CREAM
Cures Chapped Faces and Hands. It creates a perfect complexion—soft, velvety, pure and clear as a baby's skin. Harmless as dew. It goes in for face comfort and face healing. Toilet luxury for every woman. If you are a man, it's wonderful after shaving. 25c.

H. H. D.
These are not the initials of a secret society. They stand for

HOWARD'S
HAIR DYE.

Why pay $1.00 for some Hair Dye when you can get the same identical thing in Howard's for 25 cents, postpaid. Keep young. Keep your Hair, Whiskers and Mustache a Beautiful Black with H. H. D.

PROF. PARRETT'S
LIGHTNING ERADICATOR.

Made from the "QUILLAIA" BARK, a product of South America, principally found in Chili. The Eradicator is an extract of soap Tree Bark, same as Ger. Soap Root.

For removing Stains, Oil, Pitch, Grease, Dirt, Paint Spots from Silks, Carpets, Woolen Goods, etc., without injury. THE LIGHTNING ERADICATOR when brought in contact with Grease converts it into a Soap, which, being sponged out leaves the goods new. It never leaves a ring on clothing after removing spots like Benizine, Alcohol, Ammonia, Ether, etc. It is splendid for cleaning Kid Gloves; it cleans them on the hog without taking them off and leaves them Soft, Dry and Florable. IT WORKS LIKE A CHARM. It will save your Carpets. It will wash your Silk Dr. saws. It will save Coat Collars. It will save your Pant's. It will save your Shawls. It will save Neck Ties. It will save your Vests. It will save your Hat.

It is the best Preparation in the World.
Sample box sent post paid on receipt of 10 cents. Large size 25 cents. Warranted as represented or money refunded. Beware of Counterfeits. For sale by all Druggists.

PARRETT & CO.,
Office: 130-132 Pearl St., & 96-98 Water St., New York.

FOR CHILDREN WHILE CUTTING THEIR TEETH.

AN OLD AND WELL-TRIED REMEDY.

For over Fifty Years Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain. Cures wind colic, and is the best remedy for Diarrhoea. Sold by Druggists in every part of the world. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. 25c. a bottle.

SUFFERING WOMEN
(And they are in the majority), will find in LAND'S SAFE FEMALE PILLS A sure, certain, safe cure for Suppression of the Menses—no matter what causes the suppression. Pregnant women, of course, must not use them. $6.00 per bottle post paid. Address R. H. LAND, Augusta, Ga.

PRICKLY ASH LOZENGES—Unrivaled for all throat troubles, such as hoarseness, sore throat, hacking cough. No other remedy so good for singers and public speakers. Contain no opium and no nostrums, drug. 1 box 50c. post paid. R. H. LAND, Augusta, Ga.

FASTEN YOUR EYES ON THIS PAGE

Until you hear of the best Eye-Water known to humanity, If all the experts under the sun should combine their knowledge and skill, they could not produce a more positive remedy for Weak, Sore or Granulated Eyes than

John R. Dickey's Old Reliable Eye-Water.

It simply cures to an Absolute Certainty, without causing the Least Bit of Pain. Your eyes are the most delicate organs you have. You can't afford to use experimental remedies, when this safe, reliable and certain remedy may be had for

25 CENTS

All dealers or by mail. Genuine is put up in red cartons, and the name John R. Dickey's Old Reliable Eye-Water is blown in the bottle.

FOUND RELIEF AT ONCE.

HUNTINGFORD, TEXAS, July 28, 1892.
Father's eyes are entirely well. They have been sore for eighteen months, and he has tried everything he could hear of, but got no relief until I got him a bottle of your Old Reliable Eye-Water. His sight is very clear. He is now seventy-seven years old and can now read without his glasses. We feel very thankful.

CHAS. UNDERHILL.

There is Nothing Better than the best, and when you take Simmons Liver Regulator—the Red Z—you get the best remedy there is for all liver troubles. It's The King of Liver Remedies and Better Than Pills: the verdict of many millions who have taken it. Don't be persuaded by your Druggist to take any imitation or substitute. They may bring the dealer a few pennies more profit, but they won't benefit you. Take Simmons Liver Regulator only, and look for the Red Z on every package; by it you'll know you've got the right article.

From 1828 to 1896 is a long time, almost seventy years, and that is just the length of time Simmons Liver Regulator has been the household remedy of millions of people. And it will continue as the favored remedy notwithstanding all imitations and frauds.

TAKE ONLY SIMMONS LIVER REGULATOR,
THE RED Z.
